Wall Street Gossip. Reported by the New York Commercial Advertiser through Francis Bro. & Co., No. 214 North Fourth street.

The buying of Clover Leaf stocks continued to attract attention. Three different parties, it is said, each claim to own the controlling interest, but it is asserted that over 60.00 shares of preferred are held by certain outsiders, making the acquisition of the controlling interest impossible, Mr. Hawley and associates are understood to control a majority of the common.

New York, Nov. 6.-The course of stock In the local stock market yesterday the prices was exceedingly erratic nearly all day, and the early prices are not far from only feature was heavy liquidation in the 4-per-cent bonds of the United Railways The varying movement last night's figures. Though the Transit Company was seemingly due to the groping efforts of the professional operators to discover the was out with a report showing an increase of \$71,000 in earnings over the corresponding month last year, this information was not current in the market The result of their rexarded as startlingly bullish. The 4-per-cent bonds opened easy at \$85.37½ and dropped to \$55.12½, at which figure they were offered at the closs. St. Louis Transit was neglected, and United Railways pre-ferred was steady at \$82.59. Third National was the only active bank issue, with sales of 125 at \$334. Granite-Bi-Metallic was in better demand at \$1.42%, and Central Coal and Coke steady at \$67.75. regarded as startlingly bullish. The 4-perexperiments seemed to show that there was no current. The factories which have induced the re-cent downward tendency of prices are still in force to a greater or less extent, but the well established principle of speculative markets to discount the future makes it doubtful whether a current movement of prices has run an adequate course to ac-

prices has run an adequate course to accomplish this object.
Apprehension still exists that there will be large withdrawals of gold with a resulting squeeze of money rates in the local market. The advancing tendency of wages and the high prices of materials keep allve the uneasiness over the proportion of the earnings, which will be left for stockholders. But it may be possible that the considerable decline in prices which has already occurred may be sufficient to discount these possibilities.

ers. But it may be possible that the considerable decline in prices which has already occurred may be sufficient to discount these possibilities.

At all events, the bear operators who have gone on the market took sufficient account of this possibility to want to buy stocks to cover their short contracts. The advances caused by this buying met renewed selling of a rather concentrated character. The origin of this selling was a mystery, and opinion was divided as to whether it came from the bears or was further liquidation of long accounts.

The stocks most active in the trading were those which have been recent favorites in the speculation. There were gains of 1 to 1½ at one time in about a dozen rail-road stocks and half as many specialities. Cotton Oil had the benefit of its dividend declaration. Sugar broke sharply after the early strength because of fear of a further cut in prices and rumors of a rate war at Missouri River points.

The coalers were under some pressure, owing to reports of renewed troubles at the colleries of some of the independent operators, and Lackawanna suffered in addition on its showing of earnings for the September quarter, which revealed a reduction in net earnings compared with the corresponding period of last year of \$1.700,000.

Money rates were rather firm and foreign exchange was also firmly held. Fublished reports of the renewals of American loans in Paris had some effect in relieving apprehension over the foreign exchange outlook, although local international bankers attached little importance to the fact that the weekly statements of the Bank of England and the Bank of France showed continued decline in their gold reserves, the former institution losing upwards of \$3.000.000, and the latter about haif a million dollars. ### WHEAT AND CORN LOWER; OATS REMAIN UNCHANGED.

DULL DAY ON THE CHICAGO BOARD OF TRADE.

Other Local Issues Are Steady Shorts the Best Buyers in Corn Pit, Being Alarmed by Reports of Rains.

> Chicago, Nov. 5.—Duliness prevailed on the Board of Trade to-day and wheat was lower, Dec. closing 14c down. Dec. corn closed 14674c lower and oats were unchanged. Jan. provisions closed from 5c lower to 59719c higher.

WHEAT.

Wheat ruled dull, with operations largely of a scalping nature. There was a fairly good buying of May, while the selling pressure, which has been much in evidence the last few days, was almost entirely absent. A fair general demand, together with the early strength in corn, caused a strong tone during the greater part of the day. Realizing by longs late in the session caused a decline and the close was steady. Dec. opened unchanged to be lower at The to The, and after selling off to The the market advanced to 11%c, but declined toward the close to Tlc, and final figures were by lower at The. Clearances of wheat and flour were equal to 55,000 bu. Primary receipts were 1.42,000 bu., against \$52,000 bu. a year ago. Minnespolis and Duluth reported receipts of \$2 cars—only 2 of contract grade—made total receipts for the three points of 93 cars, against 1.601 cars last week and \$42 cars a year ago.

CORN.

CORN.

CORN.

Corn was quiet and irregular, with local sentiment inclined to the bull side. There was some selling pressure on Dec. earry, while elevator interests were credited with selling Nov. Shorts were the best buyers, the rains West and Southwest causing them much uneastness. Selling was chiefly by longs in the way of liquidation. Less ursent demand late in the day brought about a decline and the close was firm. Dec. closed \$\frac{1}{2}\pi^2\_6 \text{ lower at 50\pi\_6 \text{ for selling between 50\pi\_6 and 51\pi\_6. Local receipts were 141 cars, with 3 cars contract grade.

	23% 23% and 30c. Local receipts were 114 cars.

	PROVISIONS.
	Provisions were under the leadership of

lard and, with small stocks of that commodity and a material decrease in the receipts of hogs, the opening was strong. Realizing by longs brought a reaction later in the day, with shorts and commission houses good buyers. The close was slightly easier, except on lard. Jan. pork closed 5c lower at \$1.52,09.45, while ribs were 2%c lower at \$2.52,09.45, while ribs were 2%c lower at \$2.52,09.45.

REPUBLIC SPECIAL.

New York, Nov. 6.—There were no important developments in the curb market to-day. A fairly large number of stocks was dealt in, but the day's business was considerably smaller than on the previous days of the week. The close was dull, and final quotations reflect a steady time, although with irregular changes for the day. Total transactions were estimated as about 2,500 shares.

way common sold at 16% for 400 shares, and b United States Silver 6a sold at 10%.
